Description

This very cool Wire-O Notebook is equipped with a lenticular PVC cover.

The cover presents an "**image change**" effect: moving the notebook, an image will appear and disappear. This effect could be personalized even with two different images, the perfect joke to promote effectively!

The note pad can be equipped with a customized ballpoint pen, a colourfulelastic closure, and a calendar printed in the third of the deck.

Minimum production: 3,000 pieces.
