Description

Discover the magic of the new ["Memostatic" static paper sheets](#): the electrostatic sheets with a magnetic effect adhere to all the smooth surfaces by means of an electrostatic charge.

Bespoke notepad

- Closed size: 100x70 mm
- Notepad glued on the 3° cover
- Electrostatic notepad thicknesses:
 - » 50 Sheets of electrostatic paper for a thickness of 2.5 mm
 - » 100 sheets of electrostatic paper for a thickness of 5 mm

Bespoke Cover

- Material: Cardboard
- Glossy protective finish
- Customization: Process printing, from up to 1 to 4 colours

Electrostatic paper sheets: description

- Glue-free notes
- Clinging sheets, no glue's residues, the notes adhere to surfaces exploiting a stable electrostatic charge
- Repositionable for several times
- Adhere to all smooth surfaces
- Customization: company logo printing - 1 colour flexography

Electrostatic sheets colours

- **Opalescent Milk White** (front and back)
- **Standard fluorescent** colours (upper side only): **yellow, green, orange, shocking-pink**
Fluorescent colours are obtained by printing the neon ink on the upper side (one side only)
The back of the sheets is always white and usable as a slate with an erasable marker

Customizations: Summary

- Choice of the colour of the sheets: Opal White, fluorescent yellow, fluorescent orange, fluorescent green and fluorescent shocking-pink
- Optional logo printing on the sheets: 1 colour flexography
- Print on the cover: from 1 up to 4 colours
- Thickness choice

Package:

Single wrapping, boxed in cartons

Minimum quantity to run production: 1000 pieces
